Good afternoon, I was just speaking with Charlie, my distributor, and he informed me that he is planning his 5th or 6th trip back to your home to pick up the tail section of the G20. He also ended up using the tail end of a brand new G16 port to best fit your boat. Additionally, you are also looking to have the port moved a little further out due to extreme low tides around the boat. With all due respect Eric, I surely hope you recognize and appreciate the level of outstanding customer service we have all provided. I also would hope you have a little bit of empathy for Charlie between Charlie's visits and my crews visits, we've incurred well over \$1500 in expenses plus we now have a tail section of a G20 that I can't sell as new. We always strive to meet our customers needs. At this time, and in all fairness, I would ask that you forego asking for any type of refund and rather than us charging for moving the port for you, we will perform that service at no cost. I am about moving the port. Please let me know if you are agreeable to this plan. Thanks for your time.

Good afternoon Ed,

we are now fully Moved into our house.  
I Just had all the landscaping done and the big dock done.  
I am now ready for my genesis 20.  
I'm leaving tomorrow which is Tuesday night for Los Angeles and Hong Kong  
I will be home on Monday morning of next week.  
Looking to possibly have this put in Monday or Tuesday of next week.  
Would that be a good time?  
If not, when would you think of doing it?  
Here are some pictures and you can see how low the tide gets.  
Let me know your thoughts

10/12/20

Put the genesis 20 back port or  
2nd time @ ~~Adventure~~ May 2021  
OR SOA
