Item # | Product Name: #302066 Dock Buoyancy Booster

Parts List:	Tools Needed:
1. Plastic Dock Buoyancy Booster 59.5" x 29.5" x 6 "	1.
2.	2.
3.	3.
4.	4.
5.	5.
6.	6.

Assembly Instructions:

1. Installation is most easily performed in shallow water with two people. Align the buoyancy booster with the end of the dock section as shown below. The two tabs on the booster will fit into the pockets in the bottom of the dock section.

2. Push the booster under the water and under the dock section until the tabs lock into the dock. **Caution: Keep hands and fingers clear so they are not trapped between the booster and the dock section.**
