/ DESIGNED TO GROW WITH YOU

Invest confidently in a dynamic waterfront. Wave Armor Floating Docks offer durable, long-lasting solutions that can withstand any water condition and the test of time. The key advantage lies in our modular design, allowing easy layout expansion or design changes whenever you see fit.

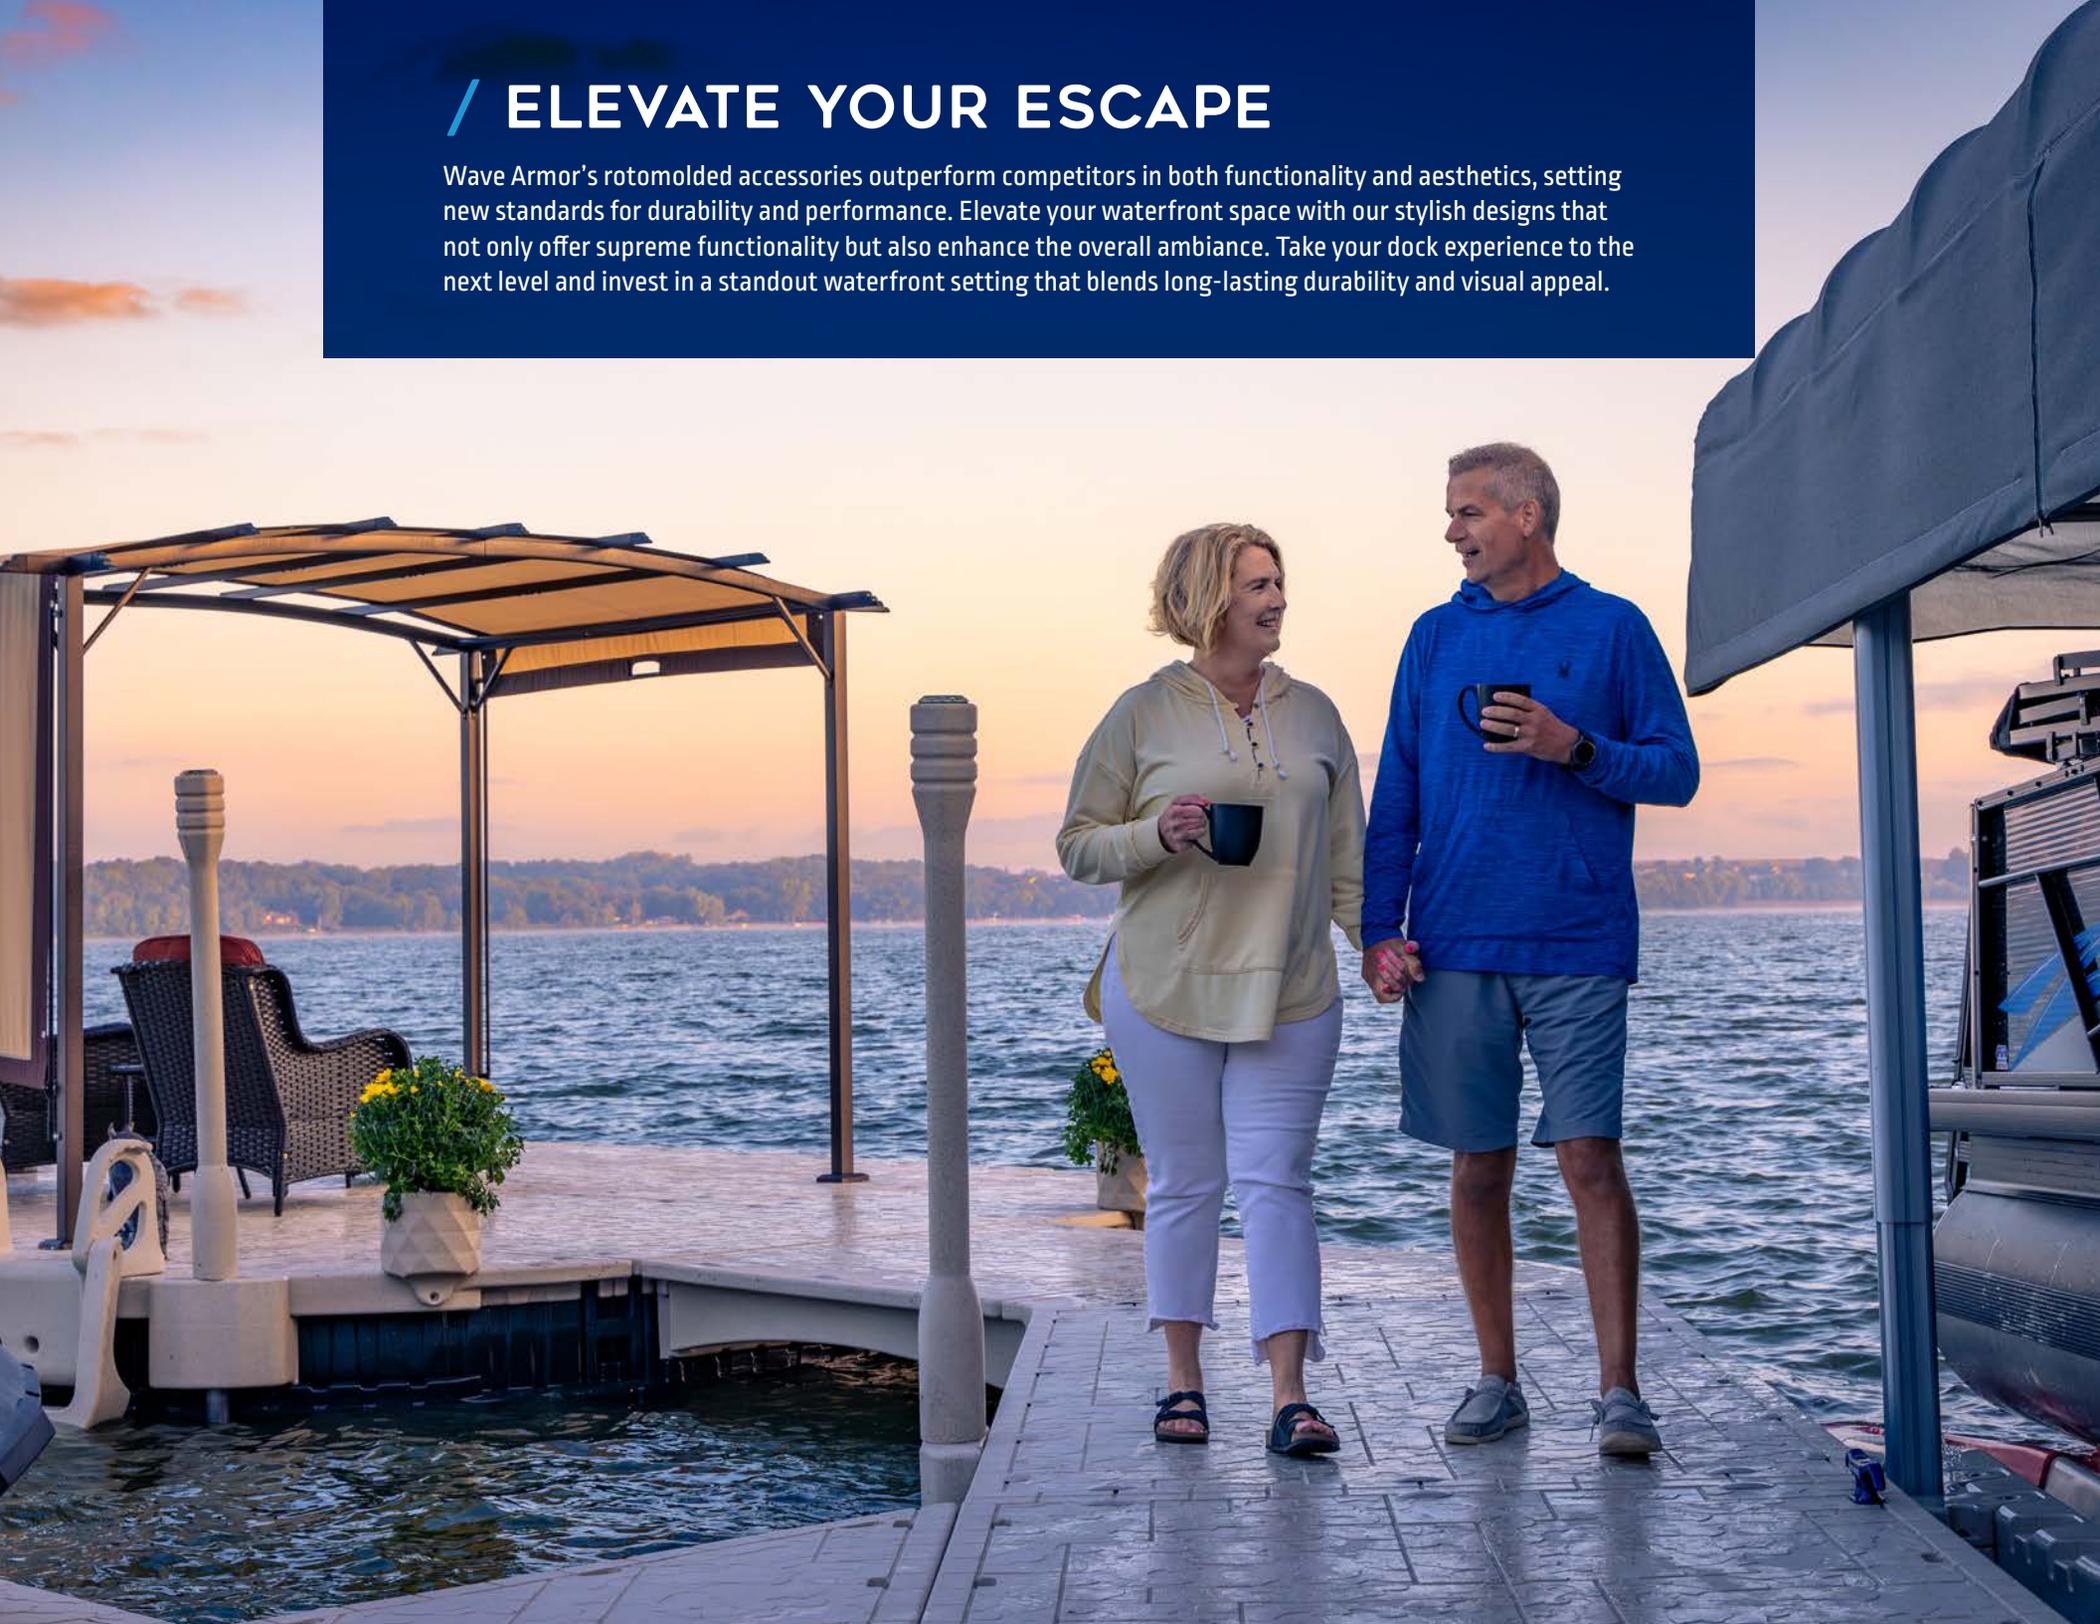

/ UNRIVALED STRENGTH FOR COMMERCIAL SUCCESS

Wave Armor sets the gold standard in durability and strength, making it the top choice for a wide range of commercial applications. Our floating docks come equipped with industry-leading strength as a standard feature, ensuring reliability in high-traffic environments. Whether for marinas, rental operations, resorts, restaurants, or any public waterfront access, Wave Armor provides a robust and lasting solution that can withstand the demands of constant use.

/ ELEVATE YOUR ESCAPE

Wave Armor's rotomolded accessories outperform competitors in both functionality and aesthetics, setting new standards for durability and performance. Elevate your waterfront space with our stylish designs that not only offer supreme functionality but also enhance the overall ambiance. Take your dock experience to the next level and invest in a standout waterfront setting that blends long-lasting durability and visual appeal.

WAVE PORTS stand out as the epitome of excellence in watercraft storage solutions, offering unparalleled advantages for boat, pontoon, and PWC owners. With a reputation for superior quality and design aesthetics, Wave Armor's legendary floating ports provide a secure and convenient option for storing watercraft completely out of the water. The wide variety of size options ensures compatibility with almost any style of watercraft, and the signature Rotomolding manufacturing process guarantees longevity and durability. The ports' adaptability is further highlighted by the numerous connection options, making them seamlessly integrate with any dock. Whether for residential or commercial applications, Wave Armor sets the industry standard, offering an unmatched combination of quality, functionality, and aesthetic appeal that sets them apart from the competition. Choosing Wave Armor means choosing the best in watercraft storage innovation.

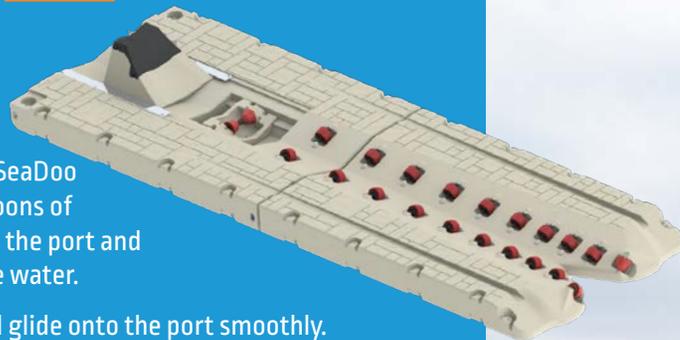

/ PRO 170 & 220 **NEW!**

All new Pro Port designed for aluminum or fiberglass boats up to 20 feet in length.

SeaDoo Switch® Compatibility: Our optional conversion kit is tailor-made for docking the SeaDoo Switch®. The blue plates cradle the outside toons of the Switch®, ensuring a perfect alignment on the port and keeping your valuable craft entirely out of the water.

- Wider entrance body to align your boat and glide onto the port smoothly.
- Adjustable bow stop and wheels to accommodate various boat sizes.
- Pro 220 comes equipped with a keel rest roller that prevents keel dragging.
- Boosters available to accommodate heavier boats and weight distribution due to heavy motors.
- Increase width and walkaround room with optional Pro Side Extension (#302514) - sold separately.
- Easy drive-on / push-off or use our new patent-pending Power Launch System. Just a push of a button and the power launch system effortlessly pushes your boat into the water softly and safely. [Sold separately, see pg. 38 for more info]

/ PRO 8

Wave Armor stands at the forefront of innovation and continuous advancements, boasting the smartest and most superior drive-on / drive-off boat ports in the industry.

The Pro 8 Boat Port is engineered for maximum customization and supports boats up to 4,200 lbs.

- Expand width by 10" on each side for more walk-around room and increased capacity with Side Extension Deck. [Sold separately #302514]
- Ideal for jet boats and watercraft with smaller engines.
- Varied wheel density ensures a soft port entrance for added protection.
- Center front roller adjusts up/down in 3" pockets to raise or lower the bow as needed.
- Side mounting pockets fit additional Wave Armor accessories for enhanced functionality.
- Big centering V-shape entrance facilitates easy entrance to the port.
- Adjustable bow stop: Can be adjusted by 60" and has the ability to be fixed or used to push the boat remotely into the water with our optional Patent Pending Power Launch system. [Sold separately, see pg. 38 for more info]

/ EXTREME X24

Extreme X24 Boat Port is our biggest and most versatile boat port, designed to accommodate boats from 23' to 32' long and up to 8,000 lbs, and packed with features for superior docking performance and longevity.

- Shock-absorbing roller system for superior docking performance.
- Entrance rollers provide additional loading support for comfortable docking.
- Additional buoyancy support up to 1200 lbs. for heavier motors.
- Front or side mounting options for flexibility.
- Sliding aluminum rail allows unlimited bunk adjustability.
- Crafted with an incredibly durable rotomolded shell, fully filled with marine-grade EPS foam, offering maintenance-free high-density polyethylene construction.

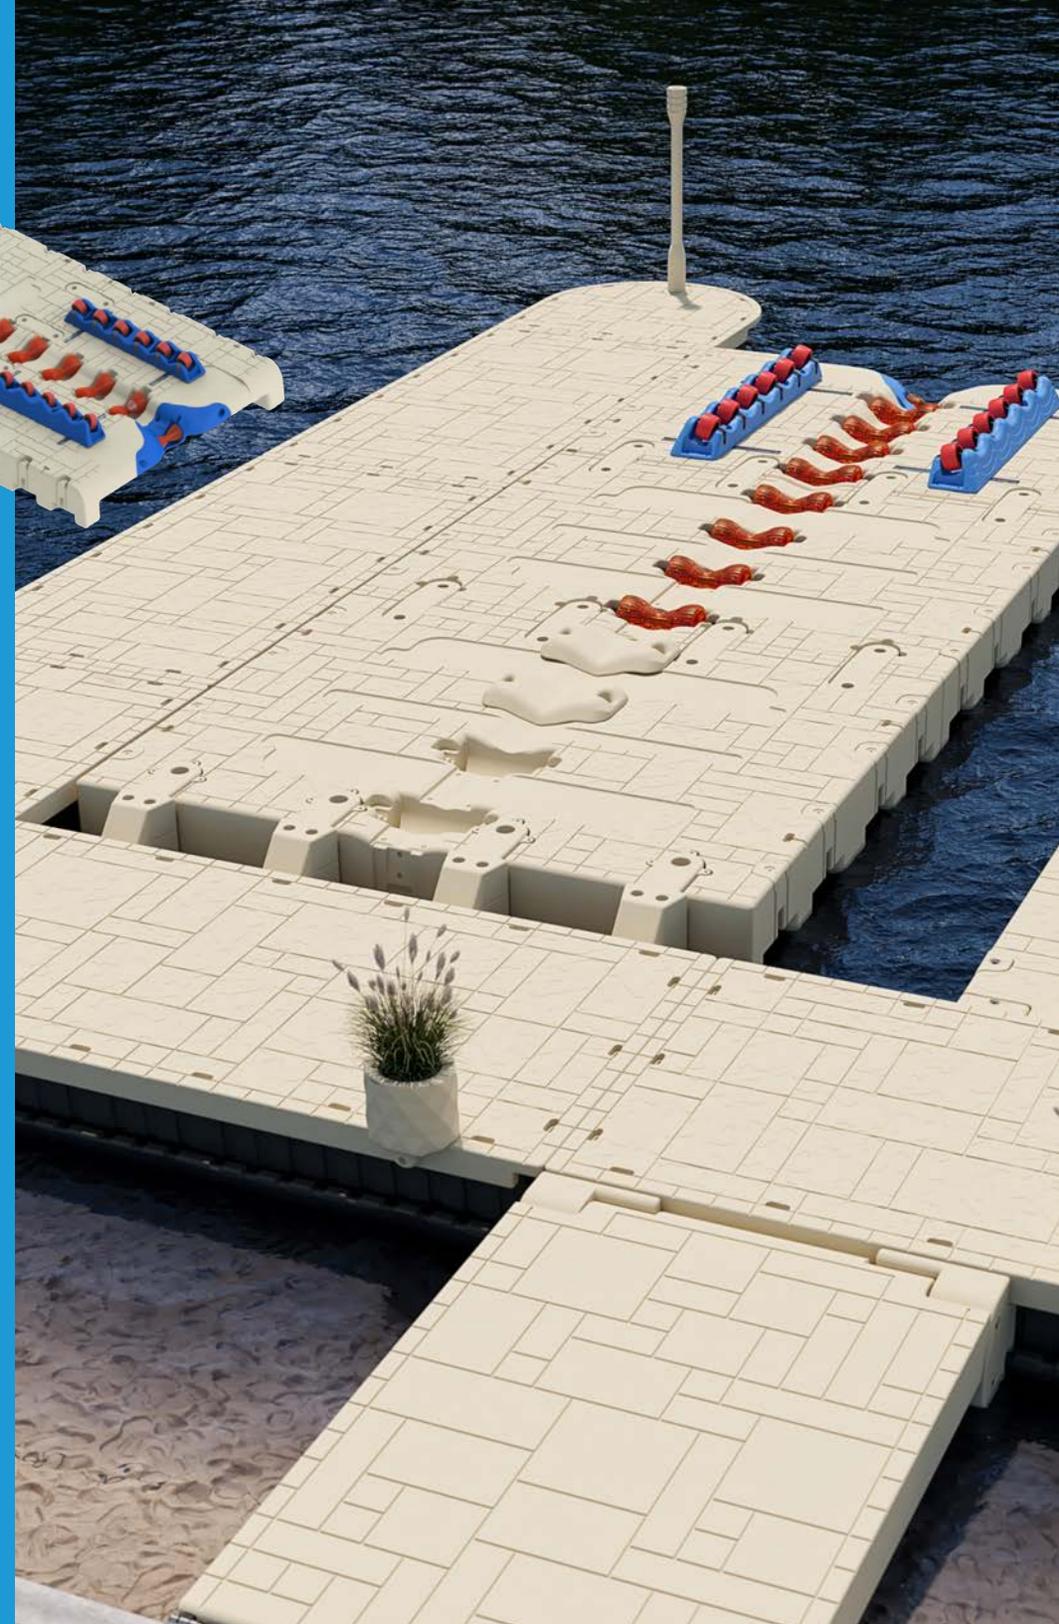

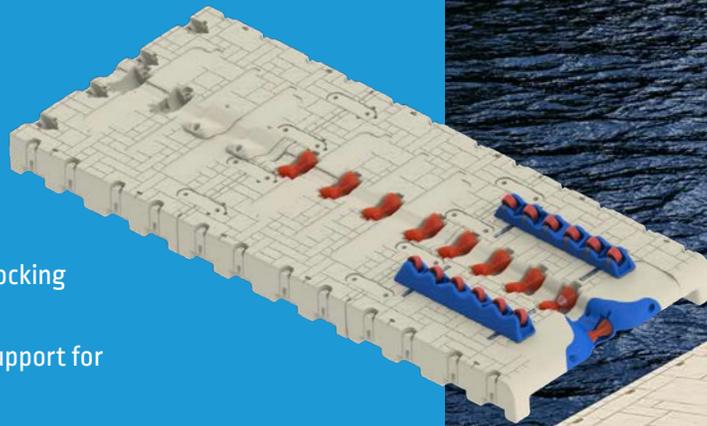

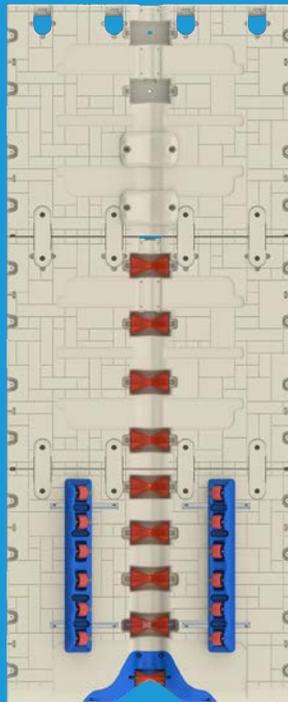

EXTREME X24

301980

Dims: 24' L x 10' W

Weight: 1,500 lbs.

Wt. capacity: 6,200 lbs.

/ PONTOON PORT

The Wave Armor Pontoon Port stands as the epitome of innovation and the most advanced port of its kind, forged through five years of dedicated research and development, marking a new era in modern waterfront technology.

- Designed to accommodate pontoons and tritoons up to 25 feet in length. Patent-pending design keeps your entire pontoon high and dry.
- Heavy-duty, flared entrance with self-centering guides.
- Adjustable Bow Stop and cushioned, protective rollers allow precise alignment.
- Strategically positioned axle pocket heights prevent drag.
- Increase width and walkaround room with optional Pro Side Extension (#302514) - sold separately.
- Crafted with an incredibly durable rotomolded shell, fully filled with marine-grade EPS foam, offering maintenance-free high-density polyethylene construction.

PONTOON PORT

/ PROTECT'R CANOPIES **NEW!**

Protection from the elements is here. Introducing ProTect'R™, the new Wave Armor port canopy system.

The perfect solution to safeguard your boat, pontoon, or personal watercraft from the elements - specifically designed for Wave Armor ports.

Constructed using our rugged rotational molded process; the new canopy features lightweight, yet incredibly strong trusses secured to a rigid aluminum frame, and paired with adjustable aluminum columns. Our UV resistant Wavebrella™ material is a marine grade canvas to fend off sun, rain, and debris. The canopy also features fully-screened ends for ventilation with 24-inch perimeter drape for even greater protection.

The result is a lightweight design that won't oxidize, with a clean, custom look. Best of all, the Wave Armor ProTect'R canopy features telescopic columns providing nearly 4-feet of height adjustment to accommodate nearly any pontoon or boat.
